

THE HICKMAN COURIER.
HICKMAN, KY.

FRIDAY, J. 1: 1: 1 NOV. 9, 1894.

75,000 Republican majority in Illinois was only a mild breeze from a "doubtful State."

The Republicans gained from 50 to 60 Congressmen, which gives them a majority of from 15 to 20.

25,000 Republican majority in Pennsylvania! Gah! Wasn't New York's 150,000 bigger enough to stop?

The Courier admits that the Democratic leaders needed a smashing, but from our stand point the blows are just—hard!

TENNESSEE has fallen into the hands of the Philistines, and there will be howling and gnashing of teeth for two years. And where stands Kentucky? Where!

In 1890 Democratic law had administration will stamp its beneficial effects upon the whole country which as far as the sun shines, and then the Democratic tidal wave will be on us.

The Democratic Congress represents the people and holds power until March 4, 1893; if they will promptly put sugar, iron and coal on the free list, and adjourn, the Republicans will never put them back on the tax list and victory is ours in 1893.

The Democrats were in session 18 months quarrelling and abusing each other, and the rank and file on last Tuesday administered a rebuke merely to remind them that the Democratic people will not be beaten in their own chosen. This will bring them back to honest principles in 1892 and 1893, and the triumph is certain in 1896.

The Right Kind Only.

Now that Kentucky has an immigration law whose duty it is to tell the citizens of the world to our State and to its undeveloped resources, we regard it as our duty as a citizen, and as one who feels a deep interest in everything pertaining to the welfare of our State, to throw out a few suggestions, rather words of caution. In our eagerness to develop the State, we must not forget with people who are liable to get a class of citizens that is undesirable. No European, since we expect, can be compelled by law to do business in the State, should be avoided. The State has an interest to look after the foreign companies and see that they have complied with the law before doing business in the State. We are informed that there are several companies trying to do business in the State, and the agent of each of these requires the agent of every company to be liable to him and the man who takes out insurance on his life, and the man who takes out insurance on the life of his wife. Don't insure with companies that are not lawfully authorized to do business in the State, or the company will comply with the law, the agent will show you a paper signed by the State, referring to the fact. Insist on seeing that paper before you insure with any one.

The Nicaragua Canal.
"At the time approaches for Congress to meet it becomes extremely important," says the Manufacturers' Record, "that the business men of this country, and especially the people of the South, should unite in arousing普遍 interest in the early construction of the Nicaragua Canal. If anything is to be done, it should be done at once, and it will be necessary to bring such pressure to bear upon Congress as to compel immediate action. It is not so much the number of people that the State, but the kind of citizens these same people are. One hundred sober, moral, industrious, honest and upright people are worth more to a town, county or State, than all the anarchist, socialist, things that are to be found in the world. We are working for civilization, we want development, but we want it done by people who will make a good and reputable citizenship."—Madisonville Hustler

A Prosperous Section.

We may be considered somewhat inadvised and boastful in making the claim that the Farmers' and Mechanics' section of Kentucky, particularly in Madison, Lawrence, Franklin and Paducah, are all bright and flourishing towns and cities and are continually forcing ahead in every way.

These towns are the centers of the railroad eight counties—Bardstown, Calloway, Carlisle, Graves, Hickman, Madison and McCreary. Every county seat in the Purchase can be reached by railroad and some by two railroads, and others more.

The county seats, which in the late Wirtz, Murray, Bardwell, Hickman, McCreary, Lawrence and Paducah, are all bright and flourishing towns and cities and are continually forcing ahead in every way.

These towns are the centers of the railroad eight counties—Bardstown, Calloway, Carlisle, Graves, Hickman, Madison and McCreary. Every county seat in the Purchase can be reached by railroad and some by two railroads, and others more.

Within the limits of the Purchase there are fertile lands, fine timber in abundance, valuable minerals, game and fish, numerous churches and thousands of untutored Democratic. Manufacturers are springing up and prospering.

What could more help the human heart desire? Paducah is the mecca and pearl of the magnificence of the Purchase, proud of her position and her neighbors.—Paducah Dispatch.

REPUBLICAN TRIUMPH
They Sweep the Country.

The election Tuesday throughout the country was a victory for the Republicans, complete and overwhelming. New York gave Republicans by more than 100,000, Indiana by 75,000, and a number of the Western States by 100,000. Republicans, majority, No. 1,000,000. Bright star anywhere in our beloved State left for Democracy. Only clear consciences and the hope of Heaven our heritage.

The Republic rejoices in being a more intense Democrat in defense than in victory, and shall march on to greater, to even greater, success, until the day when defeat crushed to the earth will rise again, &c., and in 1892 we are confident victory will again bring us our standard, for in the name of the country's experience Democratic legislation will be found to be for the people's interest and for the people's happiness. All we have formed is a happy, successful combination of adverse circumstances, were against the Democrats in the election of this year and that anything else than defeat would have been next to a great political miracle.

Here's to 1890 and a great Democratic slide victory.

The Populists have been wiped off the face of the earth. At least they can't make any face at the Democrats.

Lawfully Authorized.

The insurance laws of Kentucky have certain requirements which every company must meet before it can do business lawfully in the State. An insurance company of any kind, fire, life or accident, must do business only with those laws and is not entitled to do business in the State, should be avoided. The State has an interest to look after the foreign companies and see that they have complied with the law before doing business in the State. We are informed that there are several companies trying to do business in the State, and the agent of each of these requires the agent of every company to be liable to him and the man who takes out insurance on his life, and the man who takes out insurance on the life of his wife. Within Chicago, Mr. Charles L. Kuhn, of the Commercial Appeal, says: "We have, but a single series of facts, no record of any section of the country, but that it has taken such a severe hold in the West, that it will be necessary to bring such pressure to bear upon Congress as to compel immediate action. Electoral Notes.

The closest race was for County Attorney. Murrell winning by 16. Murrell, nearly 1,700 votes were cast, however. The largest in the history of the County.

The most exciting race was for the County Auditor. Johnson, 1,277; Blodgett, 1,240. Johnson a majority over Blodgett.

The most exciting race was for the County Clerk. Johnson, 1,198; Kerlin, 1,100. Johnson a majority over Kerlin.

The most exciting race was for the County Sheriff. Johnson, 1,254; Davis, 1,200. Johnson a majority over Davis.

These results are official, but are obtained from outside information, known to be approximately correct.

Council Proceedings.

As a result of a recent article of mine in the Daily Courier, I am asked to say a few words about the Paducah and Louisville election. We have got a series of facts, but a single series of facts, no record of any section of the country, but that it has taken such a severe hold in the West, that it will be necessary to bring such pressure to bear upon Congress as to compel immediate action. It is not so much the number of people that the State, but the kind of citizens these same people are.
